Policy Area Education contributes to an increased prosperity that presupposes access to quality education and training for all, an effective and inclusive welfare system and a well-functioning labour market supporting geographical, professional and socioeconomic mobility.

Policy Area Innovation promotes a globally competitive position within innovation for sustainable economic growth in the Baltic Sea region and provides a strong platform for an enhanced macroregional collaborative ecosystem for innovation, research, SMEs and digitalisation.

Policy Area Bioeconomy promotes a sustainable use of marine, agricultural and forest resources as well as development of rural areas in the Baltic Sea Region.

Policy Area Tourism provides a strong platform to reinforce sustainable tourism development in the Baltic Sea region, creates networks and strengthens the dialogue with stakeholders of the tourism industry and tourism education institutions.
